

UPH Toxicology Clinic

Opening August 2010

University Physicians Healthcare is proud to announce the opening of our Toxicology Clinic on the UPH Hospital Campus. When the unexpected happens, residents can now receive treatment closer to home. Our physicians are providing the only occupational and environmental exposures clinic in Southern Arizona.

Our physicians can provide assessment, treatment & follow up of:

- Occupational exposures to chemical hazards, metals, vapors, fumes, gases, and particulates.
- Rattlesnake & spider bites, scorpion stings and other venomous animal exposures.
- Exposures to environmental toxins and air pollutants.
- Exposures to household chemicals and toxins.
- Conditions caused by medication side effects and interactions.
